a. Presentation from the Daughters of the American Revolution - Betty Schulz

Betty Schulz explained the mission of the Daughters of the American Revolution was to educate the public, patriotism, and historical preservation. She said it was important to educate future generations on the history of the United States. Ms. Schultz urged the Commission to preserve the Town's history.

Commissioner Clotey asked if the organization had any type of associate membership. Ms. Schultz said they did not; however their meetings were open to the public.

- b. Presentation by School Board staff regarding Second ILA (Interlocal Agreement - Chris Akabosu, Director, Growth Management Division & Lisa Wight, Planner, Growth Management Division (Assistant Town Manager Olinzock)

Chris Akabosu gave a PowerPoint presentation. He explained the process for concurrency began in 2003 and specified the criteria required to achieve concurrency. Mr. Akabosu pointed out that the Town was located in an area that was not covered under the first agreement. He added that the process needed to begin early to allow proper planning to meet a certain level of service. He discussed the specific amendments to the agreement and their benefits. Mr. Akabosu explained that it was important that this agreement move forward before September before any new boundaries could be set.

Commissioner Dodd was concerned that the Town was receiving the short end of the stick and questioned why the Town should move forward with this agreement. Mr. Akabosu explained that even though the Town did not have any schools within their limits, the students of the Town would benefit by attending neighboring schools that met the level of service. Commissioner Dodd questioned why tax dollars should be used when the Town was short the number of students needed. Mr. Akabosu explained that the schools that serviced the Town would benefit from the agreement by allowing them to use portables as to not exceed their level of service.

Commissioner Silverstone clarified that this agreement was created due to past overdevelopment and asked how much of the Towns' input was used in drafting the agreement. Mr. Akabosu explained that the Town signed on last year and staff was then required to attend the meeting to give input. Commissioner Clotey asked if this agreement would solve the issue of busing students across the County. Mr. Akabosu explained that it would not directly affect the issue; however the agreement would create a domino effect that would eventually help ease the situation.

- c. Volunteer Firefighters Pension Plan Audit Report - FY 2008-2009 - Marcum Rachlin, Susan Friend, Partner-Quality Control, Andrew Fierman, Manager (Town Manager Colon)

Andrew Fierman gave a brief overview of the audit report including the financials of the Pension Board. Mr. Fierman stated that the VFD Pension Board had \$127,000 in contributions; a net investment income of \$65,977; \$18,000 in deductions; a net increase of \$175,000; and net assets totaling \$787,000. He explained that Marcum Rachlin did not have any deficiencies to report and that the Pension Plan was now fully compliant and fully funded.

Mayor Minnet questioned whether the decrease in administrative funds and vested members was normal for a plan of this type. Mr. Fierman explained that it varies from year to year. Mayor Minnet questioned whether a determination letter was required and if so would the VFD be receiving one. Mr. Fierman confirmed

that the letter was required and they would receive one. Commissioner Silverstone clarified that the State was responsible for the overall plan. He asked if a 7% investment rate of return was normal for a fund of this type. Susan Friend said the numbers varied. Commissioner Silverstone was concerned that the number needed to be lowered to a more reasonable level.

Manager Colon explained the VFD Pension Plan audit was never previously presented to the Commission and the reason for it now was due to the State withholding \$84,000 from the fund due to the transition from BSO to the VFD.

Commissioner Clotey questioned the reason for the decline in administrative funds. Miguel San Miguel, Chairman of the VFD Pension Board, asked the Commission to remember that this year's numbers were very different from last year due to the transition to the VFD from BSO.

Commissioner Silverstone stated he has always had a difference of opinion with the actuary on the 7% investment rate of return because of the high turn over rate within the organization.

- d. Comprehensive Annual Financial Report - FY 2008-2009 - Marcum Rachlin, Susan Friend, Partner-Quality Control, Andrew Fierman, Manager (Town Manager Colon)

Andrew Fierman gave a brief description of the procedures involved with conducting the audit. He explained that the auditing staff was rotated each year to have fresh eyes during each audit process. Susan Friend gave a detailed description of the different sections within the audit and explained that there were no material deficiencies found that were required to be reported. Ms. Friend stated that the total revenues for the Town were \$12.7 million dollars and the total expenditures were \$15.2 million dollars. She explained that the total payoff of two promissory notes totaling \$6.8 million dollars resulted in a savings to the Town of approximately \$700,000. Ms. Friend stated that the year end Fund Balance for the Town was \$6,600,000. She described the difference between the Towns' reserved, unreserved and designated, and unreserved and undesignated sections of the audit. Ms. Friend stated that the Town was in good financial health due to having a 13% level of undesignated funds, and that the total amount of unrestricted assets for the Town was \$11,273,000.

Commissioner Silverstone asked if the Town was financially sound, and questioned whether the Town had saved or lost money by paying off the two promissory notes. Ms. Friend stated that in her opinion, the Town was financially sound and that the Town did save approximately \$700,000 by paying off two promissory notes. Commissioner Silverstone described the basic procedures conducted during the audit and asked where Rachlin Marcum ranked the Town among the other municipalities the company audited. Mr. Fierman said the Town was ranked somewhere in the top five.

Mayor Minnet questioned the procedures for monetary testing and pointed out a correction needed to the Volunteer Fire Department address. Ms. Friend clarified the firms' procedures for testing monetary amounts and explained that the government facilities listed in the audit could be listed individually rather than grouped; it was the preference of the Town. Mayor Minnet inquired of the method used to determine the number of vehicles for the Police and Fire department. Ms. Friend explained that that information was received from the Town and was not audited by the firm.

Commissioner Dodd was disappointed that the firm did not make any positive recommendation to the Town and questioned the percentage of municipalities the firm found that had material deficiencies. Ms. Friend explained that a recommendation could be made, and that she did have clients with significant material deficiencies. Commissioner Dodd hoped the firm would submit a proposal when the RFP came out.

She asked people to join the Beach Clean-up on March 6, 2010. Mayor Minnet addressed citizens concerns with the purchase of the Public Safety Building and clarified that

her reason for not voting in favor of the purchase was that the warehouse was yet to be sold.

Commissioner Clotney reiterated the Mayor's reminders of upcoming events in Town. She corrected misconceptions that the current Commission was responsible for taking out the loans paid off late last year. Commissioner Clotney explained that she was never in favor of shutting down the music; it was an issue that the music was too loud late at night. She addressed the concerns of residents who did not want sidewalks on the median and pointed out that the Commission did not want the sidewalks either. She said she was in favor of burying the utility lines, but she felt the benefit versus the cost needed to be balanced. Commissioner Clotney felt the Town had a problem with the garbage service and that the Commission was in a difficult position to fix the issue. She urged residents to pay attention to the candidates during the debates and to judge the incumbents based on their history on the dais.

Commissioner Silverstone thanked the staff for their work on the audit report. He assured that the Commission was working on the garbage issue to make it fair for everyone, and hoped the residents would call him regarding their concerns on the loan payoffs. Commissioner Silverstone thanked Joyce Murray for pointing out the amount of work the Commission had to do and assured that he always supported the music. He explained the drainage issue at the pavilion was being worked on and stated that he had not seen any increase in the number of people fishing on the beach. Commissioner Silverstone was in support of burying the utility lines possibly with grant funds, and was happy with the purchase of the current Public Safety Complex.

Commissioner Dodd questioned how much the Town could have saved if the loan information had been presented to the Commission several months earlier. He was disappointed that the Town Manager did not fairly educate all the members of the dais on how matching grants work. Commissioner Dodd stated that the Hillsboro Inlet was looking for bids on a refurbished work boat. 28, 2011 by Nova Southeastern University staff during Sea Turtle Stranding and Disorientation events (Clerk White)

Commissioner Clotey believed the University should have the same type of permits they currently have. Commissioner Dodd believed it was changed last year because they had to unload equipment.

Assistant Town Manager Olinzock stated that the Commission granted permits for service vehicles to be able to use the Portals for unloading and loading equipment. He said that was what they requested this year. Commissioner Clotey believed they were only allowed to park in the Portals only to load and unload otherwise they had to park in Bougainvillea Parking lot. She pointed out that this allowed them to park there all the time.

Mayor Minnet asked whether Commissioner Clotey wanted to only allow utilization of the Portals to unload and load their equipment and then must park in the Bougainvillea Parking Lot. Commissioner Clotey confirmed.

Commissioner Dodd believed this item should be postponed to the next meeting until investigated.

Manager Colon said she received a letter from FDOT stating that PBS&J was qualified to do the job.

Commissioner Silverstone asked if the item was postponed would there be any delays or a cause to lose the funds. Manager Colon said the plans must be in by June 30th or the Town would lose the funds. Manager Colon said she could contact FDOT directly and forward their response to the Commission before the next Commission meeting.

Commissioner Silverstone made a motion to defer until the March 4, 2010 Commission meeting. Commissioner Clotey seconded the motion.

Commissioner Clotley wished the information had been made public earlier since a \$600,000 grant may go down the tubes. Manager Colon did not hear of it until today.

Commissioner Clotley asked whether the motion could be structured in such a way that the Commission directs the Town Manager get the information and if the derogatory information was correct she could automatically go to the second firm. 14. QUASI JUDICIAL PUBLIC HEARINGS

15. OLD BUSINESS

- a. Discussion and/or action regarding a contest for a new slogan (Commissioner Clotley) Deferred at the December 7, 2009 Commission meeting

Commissioner Clotley believed this item should be considered by the next Commission.

Mark Brown was concerned that the slogan which received the highest number of votes would be adopted. He feared that if an erroneous slogan was submitted and no one else submitted anything, it would be chosen. Mr. Brown requested the procedure in which the Town proposed; was it going to be marketed, go on the web site, Town stationary, and the Visitor's Guide.

Commissioner Clotley explained that she used to teach people how to do this. She did not believe that anyone on the dais would approve a derogatory slogan. Commissioner Clotley did not believe it had to be done at this time.

Assistant Town Manager Olinzock stated that the bus shelter locations were chosen based on ridership and not by staff and were located on A1A at Pine

Avenue and Commercial at Sea Grape Drive. He added that the shelters were paid for by Broward County and Lauderdale-By-The-Sea would be responsible for maintenance.

Mayor Minnet inquired as to whether there would be sides to the shelters or only an overhead. Assistant Town Manager Olinzock said there were 5 or 6 selections but Broward County offered this one.

Commissioner Clotey wanted to actually look at the shelters. She suggested putting them on the Town's web site and let the people look at them. Commissioner Clotey believed the Commission would need to make a decision very soon to get a date certain as to when Broward County would put them up.

Commissioner Silverstone asked whether the bus shelter locations were the Town's choice. Assistant Town Manager Olinzock said it was. Commissioner Silverstone suggested the installation of a bench on A1A between Publix and the Assumption Church in the near future.

Commissioner Dodd agreed the shelter should have sides for protection against wind and rain and favored seeing choices of colors.

Mayor Minnet asked when the deadline was. Assistant Town Manager Olinzock had not received a deadline date.

Commissioner Silverstone pointed out there was a project schedule from April 2010 through June 2011 and had Lauderdale-By-The-Sea to be announced therefore, he believed there was time. Manager Colon stated that the bus shelters were part of the A1A project. She said she would try to get a date and bring it back to Commission.

Commissioner Clotey thought this was a separate project from the A1A project as a lot of the cities were not on A1A. She said she was at the DOT meeting and suggested the Town should make their decision as soon as possible and obtain citizens input. Manager Colon stated that the pictures will be placed on the web site for citizens input.

Commissioner Dodd made a motion to defer to the April 13, 2010 Commission meeting. Commissioner Silverstone seconded the motion. The motion carried 4-0.

c. Discussion and/or action on Town related business (Commissioner Dodd)

Senior Center; and 6) whether the Town complied with Florida Statute 287.055 or should have gone out for RFQ. Commissioner Dodd presented a two page document in regards to his questions to Manager Colon and requested they be made part of the minutes (attached hereto and referenced as item 16c).

Manager Colon stated that she believed she already responded to 3 of the items via memo. She said she met with Choice and provided the information requested. Manager Colon explained that Choice arrived to the second meeting with their Attorney and Choice was advised that she would not meet without the Town Attorney present. She added that letters sent to Choice were copied to the Commission and it was up to Choice to come back and negotiate; she could not give the Commission any more information than what Choice gave her. Manager Colon stated that she gave a chronological event regarding the sale of property to the Commission along with competitive documents. She said she was waiting for direction from the Commission. Manager Colon stated that FDOT was working with The Florida Wildlife Association and Town staff on turtle lighting and was currently trying the sample shield suggested by the Commission. Manager Colon said she wrote a memo to the Commission regarding the Minto parking lot that informed the Commission that Minto gave a couple of thousand dollars to install shields on the lights. She added that FPL installed the wrong lights. She said the money was in the bank and FPL, Minto and the Florida Wildlife Association was working with Town staff to see if the shields would adapt to the current lights and if they did, it may be possible to give Minto back some of the funds. Manager Colon addressed the questions regarding the Senior Center audit. She said the Town was put on notice that when the auditors were ready to do an audit they will call and advise the date. Manager Colon said that Florida Statute 287.055 was complied with. She added that she will respond to Commissioner Dodd's questions via memo and attach all the memos she already gave to each Commission member.

Commissioner Silverstone stated that he was disappointed. He did not believe this was the proper way to transact Town business. Commissioner Silverstone remembered the memos and did not understand why it was being discussed. Mayor Minnet thanked Commissioner Dodd for bringing it up.
