SUBJECT TITLE: Landscaping Upgrade for El Mar Drive

EXPLANATION: Many of the median plantings along El Mar Drive are dated and in need of replacement. Brick planter boxes that were constructed years ago are cracking and are choking the plants or trees inside them. Some of the sod is in poor condition. El Mar is one of the Town's main hospitality streets and we feel the plantings should reflect the Town at its best. Mike Walker, who heads up our Community Standards Division has prepared a replanting plan after conferring with a landscape architect. Our goals are to inject more color and a sub-tropical feel to the planting, while using plants that require minimal watering and are salt-tolerant, remove the dated planter boxes and the crown of thorns plantings that are prevalent on the street, remove the landscape materials that are unsightly or unhealthy, and greatly improve the appearance of the street. We have gotten bids on the planting materials it would take to accomplish those goals and the low bids amount to approximately \$9,000. Having just replanted the medians on Commercial west of A1A, we do not have sufficient funds in our landscape budget to do a project the scope of El Mar and still keep up with landscaping needs in other areas for the remainder of the fiscal year. Therefore, we request that the Commission appropriate \$9,000 from General Fund contingencies for this project.

RECOMMENDATION: Appropriate \$9,000 from General Fund contingencies for upgrade of the El Mar Drive median landscapes.

From: Mike Walker, Supervisor Community Standards
Re: El Mar Landscape Project

Attached is the anticipated scope of work and pricing list for several vendors for the El Mar Drive landscape project. I have reduced the amount of plants as per our conversation. Tadala's Nursery, Inc. has submitted the lowest overall price on selected plants. I have estimated that approximately 1600 plants will be needed for this project. This amount at the quoted prices will be approximately \$9,000. Please advise as to how you would like to proceed.

Thank You,

Mike Walker

MW/tw

EL MAR DR LANDSCAPE PROJECT

3 Medians located at El Mar/El Prado area originally landscaped during Minto Project:

Keep existing green island ficus and silver buttonwood, replace existing crown of thorn with a combination of dwarf bougainvillea and hibiscus.

Center median will consist of dwarf bougainvillea only due to exposure to wind. Approximately **60** 3gal dwarf bougainvillea will be installed.

North side median will consist of a combination of dwarf bougainvillea and hibiscus. Approximately **300** 3gal dwarf bougainvillea and **60** 3gal hibiscus will be installed.

South side median will consist of a combination of dwarf bougainvillea and hibiscus. Approximately **450** 3gal dwarf bougainvillea will be planted and **150** 3gal hibiscus will be installed.

Remaining 6 medians north of El Prado Ave:

Median 1- Remove existing cocoplum/replace with hibiscus(**8**) to add color.

Median 2- Deteriorating sod will be removed and replaced, replace existing plants in 6 beds(green island ficus) with dwarf bougainvillea(**18**) and hibiscus(**24**). At the south end of median new plants will be added to existing green island ficus(recommend texas sage, flax lily, dwarf oleander, blue porterweed) **30-35** 3 gal plants will be needed for this area.

Median 3- South end of median grass and planter box will be removed and area will be replanted (recommend dwarf oleander, flax lily, blue porterweed) **30-35** 3gal plants will be needed for this area.

bed#1 keep existing mexican petunia

bed#2 remove existing green island ficus/replace with dwarf bougainvillea(**8**)

bed#3 keep existing crotons, remove existing green island ficus/replace with hibiscus(**15**)

bed#4 remove existing trinette/replace with hibiscus(**8**)

bed#5 remove existing green island ficus/replace with dwarf bougainvillea(**8**)

north end of median grass will be removed and area will be replanted(recommend texas sage, flax lily, dwarf oleander, blue porterweed) **30-35** 3gal plants will be needed for this area.

Median 4- north end of median grass will be removed and area will be replanted(recommend texas sage, flax lily, dwarf oleander) **30-35** 3gal plant will be needed for this area.

bed#1 add to existing ixora

bed#2 add new bed of dwarf bougainvillea(8)

bed#3 remove existing trinette/replace with dwarf bougainvillea(8)

bed#4 add new bed of hibiscus(8)

bed#5 keep existing jasmine

bed#6 add to existing ixora

south end of median grass will be removed and area will be planted(recommend dwarf oleander, blue porterweed, flax lily, texas sage) 30-35 3gal plants will be needed for this area.

Median 5- north end of median grass will be removed and area will be replanted(recommend flax lily, dwarf oleander, blue porterweed) 30-35 3gal plants will be needed for this area.

bed#1 remove existing cocoplum/replace with hibiscus(8)

bed#2 keep existing silver buttonwood

Remaining medians south of El Prado Ave:

Median1-

bed#1 remove ixora/replace with hibiscus(8)

bed#2 remove existing green island ficus/replace with hibiscus(8)

Median 2- planter boxes will be removed.

bed#1 keep existing jasmine

bed#2 add new bed of hibiscus(8)

bed#3 keep existing jasmine

Median 3-

bed#1 keep existing jasmine

bed#2 add new bed of hibiscus(8)

bed#3 keep existing jasmine

bed#4 add new bed of dwarf bougainvillea(8)

south end of median grass will be removed and area will be planted(recommend flax lily, dwarf oleander, blue porterweed) **30-35** 3gal plants will be needed for this area.

Median 4- north end grass will be removed and area will be planted(recommend flax lily, dwarf oleander) **30-35** 3gal plant will be needed for this area.

bed#1 add new bed of dwarf bougainvillea**(8)**

bed#2 remove green island ficus/replace with dwarf bougainvillea**(8)**

bed#3 remove green island ficus/replace with dwarf bougainvillea**(8)**

bed#4 remove ixora/replace with hibiscus

bed#5 remove green island ficus replace with hibiscus**(8)**

bed#6 remove cocoplum/replace with dwarf bougainvillea**(8)**

south end of median planter box and grass will be removed and area will be planted(recommend blue porterweed, flax lily, dwarf oleander) **30-35** 3 gal plants will be needed for this area.

Median 5- north end of median planter box and grass will be removed and area will be planted(recommend flax lily, dwarf oleander, texas sage, blue porterweed) **30-35** 3gal plant will be needed for this area.

bed#1 remove existing green island ficus/replace with dwarf bougainvillea**(8)**

bed#2 remove green island ficus/replace with hibiscus**(8)**

bed#3 remove green island ficus/replace with hibiscus**(8)**

bed#4 keep existing green island ficus, remove crotons/replace with hibiscus**(5)**

bed#5 remove existing green island ficus/replace with dwarf bougainvillea**(8)**

south end of median planter box and grass will be removed and area will be planted(recommend dwarf oleander, flax lily) **30-35** 3gal plants will be needed for this area.
