### SUBJECT TITLE: **Ocean Rescue Vehicle Replacement**

**EXPLANATION:** Currently, the Lauderdale-By-the-Sea Volunteer Fire Department utilizes two 2007 Polaris Ranger 800 ATVs with the purpose of providing Ocean Rescue services for the Town of Lauderdale-By-The-Sea. These units have been proven to be a very effective tools when responding to emergencies at the beach which is a service the Volunteer Fire Department is able to provide to the residents and visitors of the Lauderdale-By-The-Sea's beaches.

Although the department has tried to be vigilant in their care and maintenance of the vehicles, exposure to salt air has created heavy rust, coupled with frequent usage has deteriorated their condition to the point at which their out-of-service times often exceed their in-service times and highly increased the cost of maintenance and repairs that amount to \$5,046.92 per unit since October 2009 when the manufacturer warranty expired.

Fort Lauderdale Ocean Rescue and Pompano Beach Ocean Rescue use the same units, and they feel that the units are very effective for that purpose. Their policy is to replace the units every two years because of the exposure to the salt air and the elements. The VFD uses the units with more frequency and for longer periods of time when compared to Fort Lauderdale Ocean Rescue and Pompano Beach Ocean Rescue, which only use the vehicles for response and travel to and between lifeguard towers.

The bottom line is that after three years of service, the two 2007 Polaris Ranger 800 ATVs are in need of replacement. The Lauderdale-By-the-Sea Volunteer Fire Department respectfully requests that one of the units be replaced by the Town of Lauderdale-By-the-Sea. The VFD will replace the second one out of our operations funds. The cost of the replacing each unit is \$14,421.97 which includes the unit with emergency response package and 1 year manufacturing warranty. This purchase will be piggybacked on a Federal GSA contract that is available for public safety, and Polaris has agreed to honor that price.

An additional cost of \$4,165.00 was considered for under-coating the units in order to reduce the rust created by salty environment in which these units operate. The undercoating is performed by a Polaris authorized repair center but does they will not warranty it will prevent rust.

Department Submitting Request

Dept Head's Signature

The Volunteer Fire Department recommends unit is undercoated by the fire department personnel to eliminate the cost of the undercoating. In addition, the Volunteer Fire Department has developed a rigorous maintenance procedure to guard the units from rust as recommended by the manufacturer.

The Town Manager has advised us that the Town budgeted \$14,000.00 to purchase one unit this year in the fire fund, separate and aside from the VFD contract obligations. The VFD budget contains sufficient funds to purchase the second unit.

It takes 60 to 75 days for delivery.

**RECOMMENDATION:**

The Fire Chief and the Town Manager recommend that the Town of Lauderdale-By-the-Sea purchase one unit at a cost of \$14,421.97 during the current fiscal year.

The VFD will purchase the second unit now.
