FY2012 DESIGNATED HIGH PRIORITY ITEM - PRIORITY TOPIC

SUBJECT TITLE: **Ordinance 2012-11, Requiring Window Screening for Vacant Commercial Space.**

EXPLANATION: At the June 26th Commission meeting, staff presented first reading of Ordinance 2012-11 (**Exhibit 1**) which proposes to establish standards for screening windows of buildings with vacant commercial interior space.

The proposed ordinance included language that gave the Town an option to provide pre-printed materials as an option for property owners. Between first and second reading, staff reviewed the costs associated with providing pre-printed materials (**Exhibit 2**). We surveyed several printing companies and found the screening cost ranged from \$0.52 to \$2.13 per square foot to provide color printed screening. The costs vary depending on vendor and also the weight of paper utilized. However, in conducting our research, we could not find the specific paper weight for the pre-printed material that we require in the ordinance presented to the Commission on first reading.

The ordinance also requires screening material to include historical pictures, postcards, art work of a professional nature, or designs or drawings by the Town of the Town's projects. At the current moment, this may be an opportunity to publicize the on-going Commercial Boulevard improvements.

Based on our research, we propose changing the language proposed in the ordinance related to the approved material for window screening to require paper be a minimum of 46 lb. weight or of similar durability and opacity as approved by the Town Manager or her designee and to allow for fabric of comparable opacity (Lines 71-75, Exhibit 1);

RECOMMENDATION: We recommend approval of Ordinance 2012-11.

RE: Research for Ordinance 2012-11 Window Screening for Vacant Commercial Space

The following research was conducted in order to obtain a further understanding of the logistics and costs associated with carrying out Ordinance 2012-11 Window Screenings for Vacant Commercial Spaces. The delivery costs and logistics associated with obtaining this are outlined below in case the ordinance passes and Commission would like staff to move forward with pre-printed materials.

Ordinance 2012-11

Ordinance 2012-11 Window Screenings for Vacant Commercial Spaces was passed on first reading on June 26, 2012 and is scheduled for second reading on July 24, 2012. If passed, it will require that all transparent windows in commercial uses that are vacant and visible from the right-of-way be screened to prevent the interior of the building from being viewed. The ordinance requires that all window coverings be no less the 36" in width and completely screen the opening no less than 6' above the finished floor. Additionally, the ordinance suggests that the Town may provide pre-printed materials to assist owners of vacant storefronts in complying with the new regulation.

Images

Acceptable form of imagery for the window coverings includes historical pictures of the Town, historical post cards of the Town, artwork of a professional nature, and designs or drawings provided by the Town of Town projects. Historic photographs are available through the Broward County Historical Commission and the Fort Lauderdale Historical Society. However the pictures that these organizations have of Lauderdale-By-The-Sea are limited to the pier. Recently, we have acquired postcards of hotels in Town, which may be an option we could pursue. Finally, we could put final plans and renderings of our Commercial Boulevard and other Town improvement projects on the paper.

Printing

Staff has surveyed several printing companies to prepare the in house stock of window coverings should it be necessary. It is important to note that 60lb paper as proposed in the ordinance was not available. Table 1 below compares the three most competitive options.

Table 1

Weight	Company	Address	Cost Estimate at 300SF	Per square foot
46lb	Fed-Ex Kinkos	5975 N Federal Hwy Ft. Lauderdale FL 33308	3'x105' SF color only 46lb white bond paper \$227.50	\$0.75
21lb	Office Depot	3935 N Federal Hwy. Oakland park FL 33308	3' x 100' Color only; 21 lb. paper @300 SF \$155.82	\$0.52
24lb			24lb paper @ 300 sf.\$638.20	\$2.13
20lb	Repographia	801 N Andrews Ave Ft. Lauderdale FL 33311	3x 150 feet B&W only; 20lb bond paper \$63.00	\$0.18

Table Two is an example illustrating the cost of providing window coverings using costs identified in Table 1. For our example, we a typical storefront space in the Town on Commercial Boulevard.

This particular property provides an example of a vacant storefront that would require screening. This property contains about 73 square feet of window frontage.

Table 2 identifies the approximate cost of covering the storefront's windows to the Town based on the collected estimates.

Table 2

<i>Vendor/Paper weight</i>	<i>Approximate cost to the Town</i>
FedEx Kinkos - 46lb	\$55.00
Office Depot - 21lb	\$29.00
Office Depot - 24lb	\$117.00
Repographia - 20lb (b/w only)	\$ 13.00

Conclusion

Staff recommends that Ordinance 2012-11 be amended at second reading to allow Town Manager or designee to set the window screening material standard. This would allow flexibility if new material or better pricing becomes available. Also, to encourage and promote Town development, staff recommends that the Town provide pre-printed paper with renderings of the Commercial Boulevard projects.
