

COMMERCIAL BOULEVARD MEDIAN ALIGNMENT!

DEC. 15, 2014

FOR MORE INFO, PLEASE CALL PUBLIC INFORMATION
OFFICER STEVE d'OLIVEIRA AT 954-640-4209.

Commercial Boulevard looking east across State Road A1A towards traffic exiting Anglin's Square.

Commercial median project completed

The project to align the traffic lanes on Commercial Boulevard east and west of State Road A1A is completed.

Before the project started, drivers in the two Commercial westbound lanes in Anglin's Square were forced to merge into one lane. Since the work was completed in November, traffic flow exiting the square has improved considerably.

The existing median was removed and replaced by a smaller concrete median to separate traffic lanes.

The work to realign the roadway began on Oct. 13. The primary project work was completed by mid-November.

The Town contracted with **State Contracting & Engineering Corp.**, a Hollywood firm, to oversee the project.

State Contracting was the firm that managed the Town's award-winning **Commercial Boulevard Streetscape Project**, which was completed in December 2013.

PHASE 2

The second phase of this project will involve widening the sidewalks and adding landscaping along Commercial between A1A and **Seagrape Drive**.

This work is expected to start next summer and will complete the last section of streetscape work between the Beach Pavilion and the **Intracoastal Waterway**.
