# COMMERCIAL BOULEVARD PROJECT: STATE ROAD A1A TO SEAGRAPE DRIVE

Photo shows the final two blocks for the Commercial Boulevard streetscape project.

## FINAL PROJECT PHASE NOW UNDERWAY

The final phase of the Town's award-winning Commercial Boulevard Streetscape Project is now underway after starting on July 13. The completion date is Dec. 1.

For the next four months, construction crews will be working on Commercial Boulevard between SeaGrape Drive and Bougainvillea Drive.

Traffic on Commercial will be diverted into single lanes when needed. Please exercise extreme caution when traveling through this area.

The final phase of the Town project includes plans to widen sidewalks to better accommodate pedestrians and sidewalk dining, attractive landscaping, new paving materials, light fixtures, art work and a designated bike path. The Town has met with business owners in those two blocks and agreed to maintain visibility to their storefronts and commercial signage.

When completed, these two blocks of Commercial Boulevard will tie in with the streetscape improvements made between the ocean and Intracoastal Waterway. That widely-acclaimed project recently received a top statewide honor from the Florida Development Association, an organization that annually recognizes outstanding urban revitalization projects.

Scroll below for the attached upcoming two-week construction schedule.
