**TOWN COMMISSION SCHEDULES SPECIAL MEETING ON
APRIL 16 TO REVISIT STREETScape DESIGN FOR
COMMERCIAL BOULEVARD WEST OF SEAGRAPE DRIVE**

The **Town Commission** has scheduled a special meeting for **6PM** on **Monday, April 16th** to review the **preliminary design concepts** proposed for Commercial Boulevard between **Seagrape Drive** and the **Intracoastal Waterway**. The meeting will be held in **Jarvis Hall**, 4505 Ocean Drive.

The Commission indicated it supported **Design Concept B** but with proposed modifications.

After hearing from more business owners along Commercial, the Commission decided to hold a special meeting on April 16 to review the proposed modifications and to give business owners another opportunity to provide their input and suggestions on this important community project.

The proposed design concept (Concept B), which also needs approval from the **Florida Department of Transportation**, will add landscaping and wider sidewalks in the Town's north and south parking lots along the roadway.

The streetscape design is expected to slow traffic and make this area more appealing to drivers and pedestrians to shop, dine and do business there.

For more information, please call the **Public Information Office** at **954-640-4209**.
