AND BUILD UPON LAUDERDALE-BY-THE-SEA'S SENSE OF PLACE."**

## TUESDAY, MARCH 1

### 6:30 PM

Elizabeth Plater-Zyberk

## JARVIS HALL

**REFRESHMENTS PROVIDED**

Architect Elizabeth Plater-Zyberk started a revolution in American town planning by pioneering the "New Urbanism" movement, which encourages cities, regional planners and architects to abandon the cookie-cutter suburb and the exclusive gated community for more pedestrian-friendly and community-oriented residential spaces.

New Urbanism is the "most important phenomenon to emerge in American architecture in the post-Cold War era."
