STEVE d'OLIVEIRA AT 954-275-2801 [C] OR 954-776-3611 [O].

WATER MAIN BREAK ON WEST TRADEWINDS AVENUE

A water main break occurred early Wednesday (8-3-11) afternoon on **West Tradewinds Avenue** as crews were installing new drainage for the Town.

As soon as the accident occurred, Town officials called the City of Fort Lauderdale Water Department to dispatch an emergency construction crew to repair the damage. The Town gets its water from Fort Lauderdale.

Water pressure in the neighborhood will not return to normal until the repairs are completed later today.

Motorists are advised to use East Tradewinds Avenue until repairs are completed.

The accident occurred while construction crews were installing new drainage for the Town. The exfiltration drainage project, when completed, will reduce neighborhood flooding and runoff water pollution.

If you have any questions, please call **Tiana Washington** in the **Municipal Services Department** at **954-776-5119**.
