STARQUEST TRANSPORTATION PROGRAM

Holy cross Parish Nurse Community Outreach/Society of St. Vincent de Paul

If you are a home-bound senior having difficulty scheduling medical appointments, going to follow-up visits, picking up medicine from the pharmacy, or just getting to the grocery store, the **STARQUEST TRANSPORTATION PROGRAM** might be helpful to you.

This Holy Cross Parish Nurse Community Outreach program aims to help frail homebound seniors keep their independence as long as possible.

In a cooperative venture between Holy Cross Hospital and the Society of St. Vincent de Paul, a van is now available three days per week to bring registered participants to and from medical appointments, the pharmacy, grocery store, etc. The 12-passenger van is not handicapped accessible. To learn more about this program phone the Society of St. Vincent de Paul confidential message line at 954-943-9717. Mention your interest in **STARQUEST** and leave your name and phone number. Our coordinator will return your call, answer your questions and send you an application form.
